nVenio® ANALYTICS

Healthcare Analytics Accelerator

Don't start your Data Vault journey from scratch. Accelerate your healthcare analytics efforts with the guidance of industry veterans, proven healthcare industry data models, pre-loaded healthcare reference data, and pre-defined analytics templates.

nVenio Analytics has been designing healthcare data warehouses and analytics solutions for over 25 years. Due to the complexity of healthcare data, we started solving data integration challenges with the Data Vault approach almost 15 years ago to help analyze billing problems and recover lost revenue and haven't looked back.

- **Data Vault and VaultSpeed certified healthcare experts**
- **Proven, healthcare-specific Data Vault accelerators**
- **SUPPORT for 1 year**

Help me deliver healthcare data at the speed of business!

Project Def. — Architecture — Source mapping — Data delivery — **Project Success** — **Ongoing Maintenance** Ask about our low-cost data stack management services

Project Execution — Modeling — Deploy/Load — Continuous
